

HELP PLAN THE FUTURE OF ISLETON

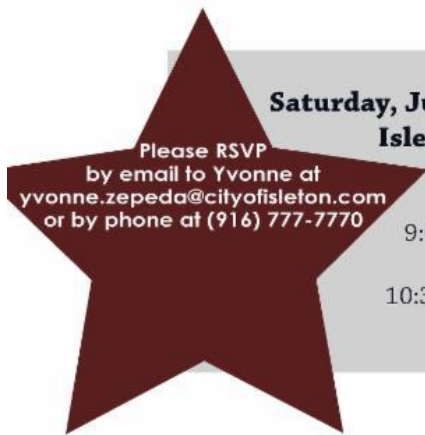

Community Workshop on Saturday, July 15th

The City of Isleton needs your input to shape three important planning efforts:

The **Downtown Improvement Plan** will focus on facade, streetscape, and parking improvements for downtown, and provide an economic development strategy for attracting investment to the community.

The **Capital Improvement Plan** will identify and prioritize capital improvements for future implementation (e.g., streets, utilities, and community facilities).

The **Community Action Plan** will identify specific actions the community can take to improve quality of life, economic development, transportation, public safety, historic preservation, and more.

Please RSVP
by email to Yvonne at
yvonne.zepeda@cityofisleton.com
or by phone at (916) 777-7770
