**ORDER OF THE HEALTH OFFICER OF THE COUNTY OF SACRAMENTO
DIRECTING ALL PUBLIC MEETINGS IN THE COUNTY TO OCCUR
VIRTUALLY UNTIL FURTHER NOTICE AND ENCOURAGING
WORKPLACES TO CONDUCT MEETINGS REMOTELY AS BUSINESS NEEDS
PERMIT**

DATE OF ORDER: January 6, 2022

BACKGROUND

The rapid emergence of the highly transmissible COVID-19 Omicron variant coupled with holiday gatherings has led to unprecedented COVID-19 case rates in Sacramento County. On December 30, 2021, there were 1,917 new COVID-19 cases reported in Sacramento County, which is 51.3% higher than the highest episode date of the winter surge of 2020 (1,267; December 14, 2020). Sacramento County's COVID-19 case rate on January 4, 2022 reached an all-time high level of 80.3 per 100,000 residents.

While data on the Omicron variant is still emerging, it has quickly become the dominant variant in the United States. The high case rates in our region are projected to impact capacity in Sacramento County hospitals.

All individuals in Sacramento County, especially those who are unvaccinated or not up-to-date with their vaccination (boosted, if eligible) and those at higher risk of severe outcomes from COVID-19, should take personal measures to reduce their risk of acquiring COVID-19. In addition to existing COVID-19 mitigation measures, including vaccination and face coverings, additional actions can help limit the likelihood of COVID-19 transmission in workplaces and public settings.

This Order is necessary to control and reduce the rate of community spread and to reinforce the need for safe interactions. The Health Officer will continue to assess the public health situation as it evolves and will reevaluate the need for this Order no later than February 1, 2022. The Health Officer may modify this Order, or issue additional Orders related to COVID-19, as changing circumstances dictate.

ORDER

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, 120175, AND 120220, THE HEALTH OFFICER OF THE COUNTY OF SACRAMENTO ("HEALTH OFFICER") HEREBY ORDERS AS FOLLOWS:

1. This Order **shall become effective January 6, 2022 at 8:00 a.m.** and will continue to be in effect until rescinded or amended in writing by the Health Officer.
2. The July 29, 2021 Order of the Health Officer directing all individuals in Sacramento County to wear face coverings indoors in workplaces and public settings remains in place and is unaffected by this Order.
3. All public boards, councils, commissions, and other similar bodies shall suspend in-person public meetings and conduct all meetings virtually. Affected bodies shall ensure opportunities for virtual public participation and compliance with the Brown Act and all other relevant statutes.
4. Employers and businesses shall consider conducting meetings remotely and take other measures as necessary to reduce transmission risk as much as business needs will permit.
5. Employers and businesses subject to the Cal/OSHA COVID-19 Emergency Temporary Standards (ETS) and/or the Cal/OSHA Aerosol Transmissible Diseases Standards should consult the applicable regulations for additional requirements. The ETS allow local health jurisdictions to mandate more protective measures.
6. All State orders and guidance documents referenced in State orders are complementary to this Order. By way of this Order, the Health Officer adopts such directives as orders as well. Where a conflict exists between a local order and any State public health order related to the COVID-19 pandemic, the most restrictive provision controls pursuant to, and consistent with, California Health and Safety Code § 131080.
7. **Copies of Order.** Copies of this Order shall promptly be: (1) made available at the County Administration Building at 700 H Street, Sacramento 95814, First Floor; (2) posted on the Sacramento County COVID-19 website (COVID19.saccounty.net) and County Health Department's website (dhs.saccounty.net/PUB); and (3) provided to any member of the public requesting a copy of this Order.

8. **Severability.** If any provision of this Order or the application thereof to any person or circumstance is held to be invalid by a court of competent jurisdiction, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

IT IS SO ORDERED:

LAW ENFORCEMENT SERVICES BETWEEN THE COUNTY OF SACRAMENTO AND THE CITY OF ISLETON

STATEMENT

Discussion of the police services in the City.

DISCUSSION

Due to the recent activity proximate to the Hotel Del Rio on Wednesday, January 26, 2022, the City has taken several actions to address police service levels in the City.

Over the past several weeks the City has taken the following actions;

1. Investigate measures upon which can be acted relative to the activities at the Hotel Del Rio.
2. Code Enforcement position interviews completed and acquisition of the Code Enforcement Officer this month.
3. City scheduled inspection of rental building pursuant to the Rental Housing Inspection Program (Ordinance 2021-04).
4. The City commenced a night patrol by the Sacramento County Sheriffs. These Sheriff patrols are provided by the City in tandem with the Sacramento County Sheriffs Off-Duty program. These patrols are nightly for the next couple of weeks.

The night patrols have helped significantly. The Sheriffs understand the concerns identified by Council and the public and have shown a more frequent regular presence.

The City is still considering all options for its police services. All options, their impacts and analysis, have not been completed. These options will be presented to Council for consideration. These options include – maintaining the current County contract, increasing the County contract, contracting with another agency, re-establishing the City's police department. Staff expects to complete the analysis and costs estimates for Council consideration within the next couple of months.

Given that some of these options require review and analysis of confidential and restricted material, Staff recommends not discussing all research and analysis at present.

FISCAL IMPACT

The current contract for County Sheriff services is \$202,000 annually. The weekly night patrol is costing the City approximately \$8,200 a week. Funds for these Sheriff services are comprised of about half from the General funds and half from special grants – Community Oriented Policing Services (COPS), and Proposition 172 funds, the Local Public Safety Protection and Improvement of 1993.

RECOMMENDATION

It is recommended that the City Council discuss and provide direction on police services for Isleton.

Finally we have some police protection to crack down on the shoot outs and frequent gunfire.

The last episode had me looking for another place to live. It was really frightening, but not the first time this kind of gunfire has happened.

Thank you for finally taking action to hopefully help put a stop to this.

THE SACRAMENTO COUNTY LOCAL HAZARD MITIGATION PLAN 2021 ADOPT

SUBJECT

The federal Disaster Mitigation Act of the year 2000 requires communities to develop a local hazard mitigation plan (LHMP) to remain eligible for federal hazard mitigation funding, with updates required every five years. The Sacramento County LHMP update was reviewed by the California Office of Emergency Services and approved for adoption by the Federal Emergency Management Agency. The 2936 page LHMP, dated September 2021, is posted at www.StormReady.org (click- Local Hazard Mitigation Plan) replacing the LHMP dated December 6, 2016, upon adoption. A hard copy of the LHMP is available for review on the reference shelf at the Arcade Library, 2443 Marconi Avenue, Sacramento.

The County, using the FEMA prescribed planning process, included active participation by staff from various County departments, from all seven cities, and from numerous special districts. Federal Code requires the LHMP be an open public involvement process. This update included several opportunities for local participation and there were public attendees from throughout the County and the seven cities.

The planning committee agreed on the following major goals for this plan:

1. Minimize risk and vulnerability of the Sacramento County community to the impacts of natural hazards, including consideration of the exacerbation of natural hazards and unique hazards due to climate change; and protect lives and reduce damages and losses to property, public health, economy, and the environment.
2. Provide protection for critical facilities, infrastructure, utilities, and services from hazard impacts, to include hardening and other efforts to establish redundancy and reliability, to prevent or minimize loss, and to facilitate recovery.
3. Enhance public outreach, education, awareness, and preparedness for all hazards to minimize hazard related losses and to include effective strategies for reaching underserved communities and vulnerable populations.
4. Increase community capabilities and leverage interagency and public-private coordination and resources to mitigate losses and to be prepared for, respond to, and recover from a disaster event.
5. Assure conformance to federal and state hazard mitigation initiatives and maximize potential for mitigation implementation.

The County reviewed the hazards and assessed the risk, reviewed the progress on past mitigation measures and updated the list of proposed mitigation measures. The Local Hazard Mitigation Plan is 2936 pages in length, its executive summary with the table of contents is attached (ATT 1).

The LHMP is presented in seven sections and there is an annex for each participating city and district. The appendices include the planning process, references, mitigation strategy, adoption resolution, threatened and endangered species, critical facilities, survey, the County's repetitive loss area analysis, and the watershed management plan. Adoption by each jurisdiction is relevant to the portion of the LHMP that pertains to that jurisdiction.

Water Resources will report to the public and the Board annually, pursuant to Activity 510 of the FEMA Community Rating System, on the status of the various mitigation measures in the updated LHMP.

FISCAL IMPACT

There is no direct fiscal impact from approval of this plan; however, if pursued several of the mitigation measures may need future funding. Maintaining an approved LHMP allows participating jurisdictions to apply for various state and federal grant funding programs.

RECOMMENDATION

1. Adopt the Resolution No. 07-22 approving the Sacramento County Hazard Mitigation Plan.

*Sacramento County
Multi-jurisdictional Local Hazard Mitigation Plan Update
September 2021*

Executive Summary

This 2021 Local Hazard Mitigation Plan (LHMP) Update serves to update the 2016 Federal Emergency Management Agency (FEMA) approved Sacramento County LHMP. The purpose of hazard mitigation is to reduce or eliminate long-term risk to people and property from hazards. Sacramento County, 7 incorporated communities, and 24 special districts prepared this LHMP Update to the FEMA approved 2016 Sacramento County LHMP, in order to make the County and its residents less vulnerable to future hazard events.

This LHMP Update demonstrates the community's commitment to reducing risks from hazards and serves as a tool to help decision makers direct mitigation activities and resources. This LHMP Update was also developed, among other things, to ensure Sacramento County and participating jurisdictions' continued eligibility for certain federal disaster assistance: specifically, the FEMA Hazard Mitigation Grant Program (HMGP), Pre-Disaster Mitigation Program (PDM), and the Flood Mitigation Assistance Program (FMA).

Each year in the United States, natural disasters take the lives of hundreds of people and injure thousands more. Nationwide, taxpayers pay billions of dollars annually to help communities, organizations, businesses, and individuals recover from disasters. These monies only partially reflect the true cost of disasters, because additional expenses to insurance companies and nongovernmental organizations are not reimbursed by tax dollars. Many natural disasters are predictable, and much of the damage caused by these events can be alleviated or even eliminated. The purpose of hazard mitigation is to reduce or eliminate long-term risk to people and property from hazards.

LHMP Plan Development Process

Hazard mitigation planning is the process through which hazards that threaten communities are identified, likely impacts determined, mitigation goals set, and appropriate mitigation strategies determined, prioritized, and implemented. This LHMP Update documents the hazard mitigation planning process and identifies relevant hazards and vulnerabilities and strategies the County will use to decrease vulnerability and increase resiliency and sustainability in the community.

This is a multi-jurisdictional plan with the following seeking approval of the plan by FEMA:

- City of Elk Grove*
- City of Folsom*
- City of Galt*
- City of Isleton*
- City of Rancho Cordova*
- City of Sacramento*
- American River Flood Control District

* Participated in 2016 Sacramento County LHMP

This LHMP Update was prepared pursuant to the requirements of the Disaster Mitigation Act of 2000 (Public Law 106-390) and the implementing regulations set forth by the Interim Final Rule published in the Federal Register on February 26, 2002, (44 CFR §201.6) and finalized on October 31, 2007. The County and all participating jurisdictions followed a planning process prescribed by FEMA as detailed in Table ES-1.

Table ES-1 Local Hazard Mitigation Planning Process

DMA Process	Modified CRS Process
1) Organize Resources	
201.6(c)(1)	1) Organize the Planning Effort
201.6(b)(1)	2) Involve the Public
201.6(b)(2) and (3)	3) Coordinate with Other Departments and Agencies

4) Implement the Plan and Monitor Progress	
201.6(c)(5)	9) Adopt the Plan
201.6(c)(4)	10) Implement, Evaluate, and Revise the Plan

The planning process began with the organizational phase to establish the Hazard Mitigation Planning Committee (HMPC) comprised of key County representatives, and other local and regional stakeholders; to involve the public; and to coordinate with other departments and agencies. A detailed risk assessment was then conducted followed by the development of a focused mitigation strategy by all participating jurisdictions or the Sacramento County Planning Area. Once approved by Cal OES and FEMA, this LHMP Update will be adopted and implemented by the County and all participating jurisdictions over the next five years.

Risk Assessment

The HMPC conducted a risk assessment that identified and profiled hazards that pose a risk to the County and participating jurisdictions, assessed the vulnerability of the Sacramento County Planning Area to these hazards, and examined the existing capabilities to mitigate them.

The Sacramento County Planning Area is vulnerable to numerous hazards that are identified, profiled, and analyzed in this Plan. Floods, earthquakes, drought, levee failures, landslides, wildfires, and other severe weather events are among the hazards that can have a significant impact on the County. Table ES-2 details the hazards identified for this Sacramento County LHMP Update.

Table ES-2 Sacramento County Hazard Identification Assessment

Hazard	Geographic Extent	Likelihood of Future Occurrences	Magnitude/Severity	Significance	Climate Change Influence
Climate Change	Extensive	Likely	Limited	Medium	–
Dam Failure	Significant	Occasional	Catastrophic	High	Medium
Drought & Water Shortage	Extensive	Likely	Limited	Medium	High
Earthquake	Extensive	Occasional	Catastrophic	Medium	Low
Earthquake Liquefaction	Limited	Occasional	Critical	Medium	Low
Floods: 1%/0.2% annual chance	Significant	Likely	Catastrophic	High	Medium
Floods: Localized Stormwater	Extensive	Highly Likely	Limited	Medium	Medium
Landslides, Mudslides, and Debris Flow	Limited	Occasional	Limited	Low	Medium
Levee Failure	Extensive	Occasional	Critical	High	Medium
Pandemic	Extensive	Likely	Catastrophic	Medium	Medium
Severe Weather: Extreme Cold and Freeze	Extensive	Highly Likely	Limited	Medium	Medium
Severe Weather: Extreme Heat	Extensive	Highly Likely	Limited	Medium	High
Severe Weather: Heavy Rains and Storms	Extensive	Highly Likely	Limited	Medium	Medium
Severe Weather: Wind and Tornado	Extensive	Highly Likely	Limited	Medium	Low
Subsidence	Significant	Highly Likely	Limited	Medium	Medium
Volcano	Extensive	Unlikely	Negligible	Low	Low
Wildfire	Significant	Highly Likely	Critical	High	High
Geographic Extent Limited: Less than 10% of planning area Significant: 10-50% of planning area Extensive: 50-100% of planning area		Magnitude/Severity Catastrophic—More than 50 percent of property severely damaged; shutdown of facilities for more than 30 days; and/or multiple deaths Critical—25-50 percent of property severely damaged; shutdown of facilities for at least two weeks; and/or injuries and/or illnesses result in permanent disability Limited—10-25 percent of property severely damaged; shutdown of facilities for more than a week; and/or injuries/illnesses treatable do not result in permanent disability Negligible—Less than 10 percent of property severely damaged, shutdown of facilities and services for less than 24 hours; and/or injuries/illnesses treatable with first aid			
Likelihood of Future Occurrences Highly Likely: Near 100% chance of occurrence in next year, or happens every year. Likely: Between 10 and 100% chance of occurrence in next year, or has a recurrence interval of 10 years or less. Occasional: Between 1 and 10% chance of occurrence in the next year, or has a recurrence interval of 11 to 100 years. Unlikely: Less than 1% chance of occurrence in next 100 years, or has a recurrence interval of greater than every 100 years.		Significance Low: minimal potential impact Medium: moderate potential impact High: widespread potential impact			
		Climate Change Influence Low: minimal potential impact Medium: moderate potential impact High: widespread potential impact			

Mitigation Strategy

Based on the results of the risk assessment, the participating jurisdictions and the HMPC developed a mitigation strategy for reducing the County's and all participating jurisdictions' risk and vulnerability to hazards. The resulting Mitigation Strategy for the Sacramento County Planning Area is comprised of LHMP goals and objectives and a mitigation action plan which includes a series of mitigation action projects and implementation measures. Based on the risk assessment, the HMPC identified goals and objectives for reducing the Sacramento County Planning Area's vulnerability to hazards. The goals and objectives of this multi-hazard mitigation plan are:

GOAL 1: Minimize risk and vulnerability of the Sacramento County community to the impacts of natural hazards, including consideration of the exacerbation of natural hazards and unique hazards due to climate change; and protect lives and reduce damages and losses to property, public health, economy, and the environment.

Goal 2: Provide protection for critical facilities, infrastructure, utilities, and services from hazard impacts, to include hardening and other efforts to establish redundancy and reliability, to prevent or minimize loss, and to facilitate recovery.

GOAL 3: Enhance public outreach, education, awareness, and preparedness for all hazards to minimize hazard related losses and to include effective strategies for reaching underserved communities and vulnerable populations.

GOAL 4: Increase community capabilities and leverage interagency and public-private coordination and resources to mitigate losses and to be prepared for, respond to, and recover from a disaster event.

GOAL 5: Assure conformance to federal and state hazard mitigation initiatives and maximize potential for mitigation implementation.

Actions to support these goals are shown on Table ES-3.

RECOMMENDED ACTION

1. Adopt the resolutions approving the Sacramento County Hazard Mitigation Plan.
2. Acting as the Sacramento County Water Agency (a plan participant), adopt the Sacramento County Local Hazard Mitigation Plan.

BACKGROUND

The federal Disaster Mitigation Act of the year 2000 requires communities to develop a local hazard mitigation plan (LHMP) to remain eligible for federal hazard mitigation funding, with updates required every five years. The Sacramento County LHMP update was reviewed by the California Office of Emergency Services and approved for adoption by the Federal Emergency Management Agency. The 2936 page LHMP, dated September 2021, is posted at www.StormReady.org (click- Local Hazard Mitigation Plan) replacing the LHMP dated December 6, 2016, upon adoption. A hard copy of the LHMP is available for review on the reference shelf at the Arcade Library, 2443 Marconi Avenue, Sacramento (Tuesday to Saturday 10am to 6pm).

On July 14, 2020, the Board approved a consultant agreement with Foster Morrison Consulting in the amount of \$214,708 for the County's share of the Sacramento County 2021 Multi-jurisdictional Local Hazard Mitigation Plan. The consultant contract and coordination of the planning effort was managed by the Floodplain Management Section of the Department of Water Resources. The planning committee, using the FEMA prescribed planning process, included active participation by staff from various County departments, from all seven cities, and from numerous special districts.

Federal Code requires the LHMP be an open public involvement process. This update included several opportunities for local participation and there were public attendees from throughout the County and the seven cities.

The planning committee agreed on the following major goals for this plan:

1. Minimize risk and vulnerability of the Sacramento County community to the impacts of natural hazards, including consideration of the exacerbation of natural hazards and unique hazards due to climate change; and protect lives and reduce damages and losses to property, public health, economy, and the environment.
2. Provide protection for critical facilities, infrastructure, utilities, and services from hazard impacts, to include hardening and other efforts to establish redundancy and reliability, to prevent or minimize loss, and to facilitate recovery.
3. Enhance public outreach, education, awareness, and preparedness for all hazards to minimize hazard related losses and to include effective strategies for reaching underserved communities and vulnerable populations.
4. Increase community capabilities and leverage interagency and public-private coordination and resources to mitigate losses and to be prepared for, respond to, and recover from a disaster event.
5. Assure conformance to federal and state hazard mitigation initiatives and maximize potential for mitigation implementation.

The planning committee reviewed the hazards and assessed the risk, reviewed the progress on past mitigation measures and updated the list of proposed mitigation measures. The Local Hazard Mitigation Plan is 2936 pages in length, its executive summary with the table of contents is attached (ATT 1).

The LHMP is presented in seven sections and there is an annex for each participating city and district. The appendices include the planning process, references, mitigation strategy, adoption resolution, threatened and endangered species, critical facilities, survey, the County's repetitive loss area analysis, and the watershed management plan. Adoption by each jurisdiction is relevant to the portion of the LHMP that pertains to that jurisdiction.

Water Resources will report to the public and the Board annually, pursuant to Activity 510 of the FEMA Community Rating System, on the status of the various mitigation measures in the updated LHMP.

FINANCIAL ANALYSIS

There is no direct fiscal impact from approval of this plan; however, if pursued several of the mitigation measures may need future funding. Maintaining an approved LHMP allows participating jurisdictions to apply for various state and federal grant funding programs.
